

CSE Program

(Customized Standard Enclosures)

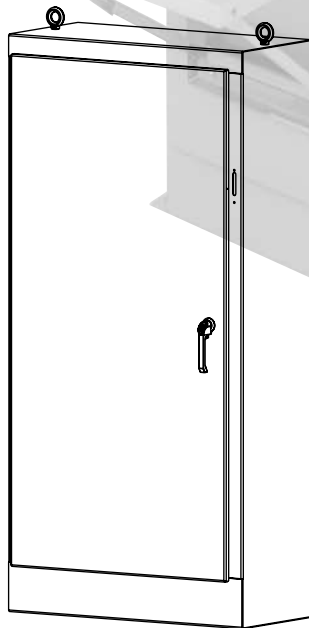

Saginaw Control & Engineering can reduce turnaround time by using a standard enclosure design and adding holes and cutouts.

Select any enclosure from our catalog and download the drawing from our website. (<http://www.saginawcontrol.com>). Make the necessary changes, and let Saginaw Control & Engineering build it for you.

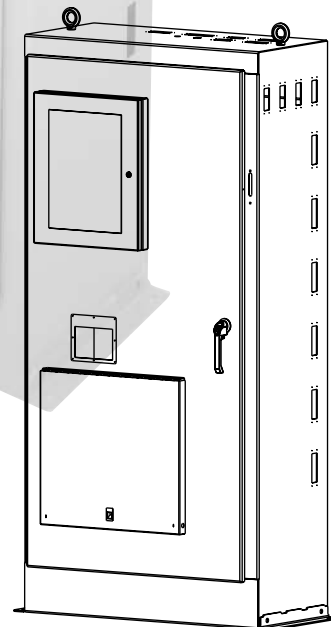

Services Include:

- Precision cutting of all special holes and cutouts.
- Installation of accessories.
- Constructed from carbon steel, 304 or 316 stainless steel.
- Painting of enclosures in the color of your choice.
- Manufacturing to the highest quality standards.

CSE Program

Download standard enclosure design from our website.

Make necessary changes to the standard design.
