Subject: REACH - Regulation for **R**egistration, **E**valuation, **A**uthorization and Restriction of **C**hemicals

Dear Customer;

Thank you for your inquiry regarding the current status of our products and production processes with respect to the European Union's 'REACH' Regulation.

The European Union's "REACH" Regulation program has been established to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

The following internet address provides a detailed list of the Chemicals that the "REACH" program addresses:  
[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

TURCK does not manufacture chemicals, export chemicals or export articles that intentionally release chemicals. TURCK does not intentionally add chemicals or substances that are deemed as being of "Substance of Very High Concern SVHC" based upon the ECHA published lists.
